### ★ NEW ★ Lil-Buddy™ PRO1 HEAVY DUTY Model

The Lil-Buddy™ PRO1 Heavy Duty auto glass tool provides a single technician the ability to extract and replace windshields and back glass quickly and safely on most vehicles, heavy duty auto glass included!

#### LBP1HD LIL BUDDY PRO1 HEAVY DUTY MOBILE GLASS LIFTING DEVICE

The exclusive patented design enables you to lower the windscreen into the urethane without the need to remove either suction cups from the glass.

#### Features:

- ★ Now includes a heavy duty sliding rod to handle the weight of heavy windshields and back-glass such as commercial trucks, vans, and recreational vehicles.
- ★ Built with stainless steel and heavy duty plastics for a lifetime of use with proper care.
- ★ Now features a clearly defined measuring system.

**THE NEW HEAVY DUTY VERSION REQUIRES LESS MAINTENANCE, MAKING IT THE PERFECT CHOICE FOR TECHNICIANS.**

## Vacuum Suction Cups

**ALL OF THESE CUPS ARE DESIGNED FOR CURVED OR FLAT GLASS.**

### WK420 PUMP ACTION VACUUM LIFTER

Designed for cars, buses, trains and the flat glass industry.

- ★ Ideal for curved or flat surfaces
- ★ A red safety band appears on the handle to warn you of any pressure loss.

**200mm Diameter Cup**  
**Safe Working Load 56kg**

## Vacuum Suction Cups cont

**DSC148 XTRA-GRIP DOUBLE SUCTION CUP - 148mm**

Larger diameter suction cups with concave / flexible rubber flanges give these lifters a more secure grip on curved or flat glass surfaces.

*Swivel head design*

*Larger diameter contoured cups for better grip*

*Includes slot in handle for ratchet tie downs*

*148mm*

**"BTB Best Seller"**

**Safe Working Load 30kg**

**DSC148K XTRA-GRIP DOUBLE SUCTION CUP KIT (2 x DSC148)**

Lifting larger windscreen glasses is made easier with a pair of these Xtra-Grip double suction cups.

*Pair*

**Designed for lifting Automotive glass**

**WK400 DOUBLE SWIVEL SUCTION CUP**

Some fitters still prefer the traditional double swivel suction cup for lifting, fitting and positioning of automotive glass. These have a hard plastic body and two 115mm swivel head cups.

*Includes slot in handle for ratchet tie downs*

*Supplied with protective covers*

**Safe Working Load 30kg**

**XSG148 XTRA SOFT GRIP DOUBLE SUCTION CUP - 148mm**

With extra soft rubber cups.

**WK400AL ALUMINIUM DOUBLE SWIVEL SUCTION CUP - 123mm**

The aluminium swivel suction cup is more robust than plastic housing versions, ideal in applications where cups are more prone to be dropped and damaged.

**Safe Working Load 40kg**

**SAC123 ALUMINIUM SINGLE SUCTION CUP**

The handle where there is no handle! Designed for attaching to glass, giving you greater control when positioning glass. These cups attach or release in seconds. They provide a strong grip on small glasses.

*Squeeze Handles To Create Vacuum On Glass*

*Supplied with a protective cover*

**Safe Working Load 15kg**

**WH9601 G-HANDLE SUCTION CUP - 75mm**

**Safe Working Load 10kg**

The G-Handle design suction cup has a very flexible rubber pad that can be applied quickly to any smooth surface. Great for lifting small glasses.

**GHS100 G-HANDLE SUCTION CUP - 100mm**

**Safe Working Load 15kg**

## Glass Support Stands

### AP4300 STANDARD WORK TABLE

- ★ This foldable sturdy work table is used for holding automotive glasses, panels, bumper bars etc. Replacement foam sleeves are also available. See below.

Now includes adjustable linkages.

### HDS060 HEAVY DUTY WINDSCREEN / PANEL STAND

- ★ Robust design gives more stable support for glass and vehicle panels.
- ★ Covered with a medium density foam which will not damage as easily as standard foam and provides better grip on automotive glass / panels.

Flat packed for freighting. Quickly and easily assembly.

fully adjustable

### AP4330 REPLACEMENT FOAM SLEEVES FOR AP4300 WORK TABLE - Pair

### HDS060RS REPLACEMENT FOAM SLEEVES FOR HDS060 WINDSCREEN STAND - Pair

## Window Holders

### WH745 LONG WINDOW HOLDERS - Pair

Hold up the glass while you work on the door regulator for applications where there is a top door frame.

Made in the USA

### AP3400 SUCK ON CLAMPS - Pkt 6

This innovative tool is a Temporary Fastener System that assists in the application of:

- ★ Windscreen mouldings
- ★ Protector mouldings
- ★ Emblems and badges
- ★ Securing of wiper arms on Buses whilst being pressure washed

Essential tool for every auto glass shop
