Bus, Truck and Rail Kit

WKBTR15-BX 15 Blade BUS TRUCK & RAIL Air Tool Kit

For the bus, truck, rail and commercial industries, this tool kit is suited to removal of adhesive bonded glass and bonded panels on today's transport fleets. The kit includes external and internal cutting blades, as well as blades to easily remove adhesive backfill from between glasses. Adjustable cutting depth control arms regulate cutting depth.

- Packaging:**
Sturdy Plastic Carry Box
- Training Package:**
Intro & Training DVD, User Manual

Glass, panel and bonded component removal in large vehicles involves harder and wider beads of adhesive. BTB's robust air tool is designed for heavy duty applications.

CUT FROM OUTSIDE
with PCK blades or combine inside and outside cuts for large and difficult glasses.

CUT FROM INSIDE
with standard blades for **WIDE, HARD, DOUBLE or HIDDEN ADHESIVE BEADS**

REMOVE BONDED PANELS
or accident damaged panel sections for repair from buses, trains and similar vehicles.

No need to remove interior trims with BTB's thin smooth blades which safely reciprocate between the trim seal and glass.
