

Auto Glass Removal Applications

Many glass removals, most specifically if undamaged and to be re-installed, may require different or a combination of cut-out techniques. BTB's precise, smart and versatile air or battery powered system allows you to cut the adhesive:

- *using no stress or force,*
- *from outside the vehicle,*
- *from inside of the vehicle,*
- *against the glass surface, or*
- *against the pinchweld/panel surface, avoiding contact with the encapsulation*

Long flexible blades easily **REACH URETHANE BELOW DASHBOARDS** including double beads and difficult adhesives on side and back glasses.

Cut from outside vehicle with **POWERED COLD KNIFE BLADES** for a fast cut-out without physical force to the glass or technician's limbs.

PRECISE CUTTING from INSIDE VEHICLE with BLADE DEPTH CONTROL ARMS for user confidence and protection of painted surfaces.

For **ANY CURVED GLASSES**, thin flexible blades follow the contour of the curved glass.

Small light-weight and versatile power tool is excellent for removing **SMALL & DIFFICULT GLASSES**.

CUT AGAINST PINCHWELD from inside vehicle and underneath the moulding to save and **RE-USE EXPENSIVE ENCAPSULATED GLASSES**.

Quick and easy **ANTI-SCRATCH PINCHWELD SCRAPER** blades leave a thin even layer of adhesive for re-bonding.

CUT UNDER EDGE OF EXPOSED GLASS OR ENCAPSULATION from outside using a standard blade to cut against either the glass or body panel.

BTB's Famous Air Powered Auto Glass Cut-Out Tool

A small but superior powered Air Tool for every-day use and recommended for workshop or heavy duty use in bus and train glass removal.

Powerful, Precise, Versatile and Reliable

Packaging: Cardboard Box

Training Package:

User Manual, Online Videos

Air Power Tool Only

WK10HD Air Tool with WKGA Tool Accessory Kit

Includes airline with fitting.

TIP

If a mobile air supply is required for your BTB air power tool, simply use a small air compressor powered by a vehicle power inverter system **OR** for quiet and total portability, use a bottle of Carbon Dioxide (CO₂) fitted with a pre-set pressure regulator.
