

Bent Blades

Applications

For general use and mostly for cutting from inside vehicle. These blades provide access to adhesive in mid-range reach applications and for curved glass where extra reach is required.

Part / Length	Flexible C / Arm	Blade Image	Specific Applications
WK3 190 mm	✓ WK11DW5 / WK11FW		Semi-rigid non-serrated multi-purpose blade.
WK3-S 190 mm		Serrated 	Semi-rigid serrated multi-purpose blade.
WK4 190 mm			Flexible non-serrated medium reach blade for curved glass applications.
WK4-S 190 mm		Serrated 	Flexible serrated medium reach blade commonly used for curved glass on rear hatch doors.
WK24 240 mm	✓ WK11FW		Flexible non-serrated longer reach blade follows contour of curved glass and cuts hard to reach adhesive.
WK24-S 240 mm		Serrated 	Flexible serrated longer reach blade follows contour of curved glass on rear hatch doors and cuts hard to reach adhesive.
